

Potential Targets for Negative Pressure Wound Therapy

A Fast Solution to the art of wound Healing.....

Negative Pressure Wound Therapy

Negative Pressure Wound Therapy (NPWT) has revolutionized the care of the wounds. NPWT has many advantages over conventional methods of wound management.

A Smart Way to The Science of Wound Healing :

- The Invo vac NPWT device has smart look, light weight, easily portable, various in-built safety alarms and an intuitive user interface.
- The Invo vac NPWT device delivers controlled negative pressure from - 25mmHg to - 200mmHg in steps.
- The Invo vac NPWT device has different safety parameters like leakage alarm, blockage alarm, canister full alarm and battery status, etc...

Benefits of Invo vac NPWT :

- Directly Stimulates cell proliferation and migration of the epithelial cells.
- Promotes granulation tissue formation.
- Increases local blood perfusion.
- Reduces localized oedema.
- Provides a moist, closed wound healing environment.
- Removes the wound exudate & infectious materials.
